FOR YOUR SAFETY
READ BEFORE OPERATION

- Read all instructions before operating the Magic Bullet.
- Do not immerse the cord, plug or base in water or other liquids.
- Do not pull, twist or mistreat the power cord.
- Avoid contact with moving parts.
- Keep hands and utensils away from the cutting blade while chopping or blending food to reduce the risk of severe injury to person or damage to the blender/chopper. A scraper may be used, but only when the blender/food chopper is not running.
- Never keep the blade running for more than one minute at a time, as it can cause permanent damage to the motor. If the motor stops working, unplug the Power Base and let it cool for a few hours before attempting to use it again. Your Magic Bullet has an internal thermal breaker that shuts off the unit when it overheats. Letting the thermal breaker cool down should allow the Power Base to reset.
- Do not operate any appliance with a damaged cord or plug or if the appliance malfunctions, or is dropped or damaged in any manner. Contact Customer Service for assistance in obtaining a replacement.
- Unplug the Magic Bullet when it is not in use, before putting on or taking off parts, and before cleaning or assembling.
- Always use your Magic Bullet on a clean, flat, hard, dry surface.
- Always completely assemble the blade and cup before placing on the Power Base.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock or injury.
- Do not allow the cord to hang over the side of the counter or table.
- Do not allow cord to touch hot surfaces, including stove.
- Never leave the Magic Bullet unattended while it is in use.
- Close supervision is necessary when any appliances are used by or near children.

BLENDER SAFEGUARDS

- To reduce the risk of injury, never place the cutting blade on the Power Base without putting cup or Party Mug properly in place.
- Be certain that blade is completely and firmly screwed on to the cups, Party Mugs, or blender container before operating appliance.
- Do not use Magic Bullet in the rain or in wet conditions.
- Do not use outdoors if exposed to inclement weather elements.
- Blades are sharp. Handle carefully.
- Do not attempt to defeat the cover interlock mechanism.
- Do not modify the plug in any way.
- Check gasket to make sure it is completely seated in the cross blade or flat blade unit before each use.

- Always operate blender with cover in place.
- When blending hot liquids, remove the clear center piece of two-piece blender cover.
- Be certain that the two-piece blender cover is firmly in place before operating appliance.
- Never feed blender container food by hand; always use the plunger.
• Never microwave with the blade or solid lid still attached. Remove the blade or solid lid and twist on a Shaker/ Steamer top.
• When microwaving, beware of steam and use an oven mitt to remove hot cups or containers from the microwave.
• Do not use Party Mugs in the microwave.
• Follow the heating times recommended in your microwave oven instruction manual carefully.
• Do not overcook food. Always keep a check while cooking with your microwave.
• Do not cook whole eggs in the microwave.
• Superheated Water – Liquids such as water, coffee, tea or soups are able to be overheated beyond the boiling point without appearing to be boiling. Visible bubbling or boiling when the container is removed from the microwave is not always present. This could result in very hot liquids suddenly boiling over when the container is disturbed or a spoon or other utensil (such as a Magic Bullet blade) is inserted into the liquid. To reduce the risk of injury to persons:
  – Do not overheat the liquid. Heat in short bursts, and thoroughly stir in between to ensure the heat is evenly distributed.
  – Do not use containers with a solid lid in your microwave. Always use the Shaker/ Steamer lid.
  – Use extreme care when inserting a spoon or other utensils into the container.
  – Avoid heating baby food or formula in Magic Bullet cups, even with the lid off.
  – Don’t defrost frozen beverages in Magic Bullet cups (especially carbonated beverages). Even if the container is opened, pressure can build up. This can cause the container to burst, possibly resulting in injury.
  – Hot foods and steam can cause burns. Be careful when opening the Magic Bullet cups when they contain hot microwave foods and liquids.
  – To prevent possible injury, always use protective oven gloves and direct steam away from hands and face.

Congratulations on your purchase of the Magic Bullet, the personal, versatile countertop magician that works like magic. As you’ve no doubt noticed, the Magic Bullet is not your ordinary kitchen appliance. In fact, it’s an entirely new concept in labor-saving devices. Unlike bulky blenders and unwieldy food processors that most of us only pull out of storage for specific recipes and special occasions, the Magic Bullet is so handy, so versatile and easy to use that you’ll put it to work EVERY single day (probably several times a day). Best of all, it saves you time because it does almost any job in the kitchen in 10 seconds or less!

Peeling, chopping, mixing and blending are all tedious, time-consuming kitchen tasks that can really take the joy out of cooking, especially for those who are pressed for time. But with the Magic Bullet you can peel, chop, mix, blend, whip, grind and more — all in just seconds — for the fastest, tastiest meals ever. Imagine, everything from chopped onions and minced garlic to light and creamy cheesecake, all prepared in just 10 seconds or less! And that’s just the beginning. The Magic Bullet cups are microwave safe, which means you can actually cook in them. Afterward, simply pop on one of the stay-fresh resealable lids to keep leftovers fresh and flavorful for days. Just think … no knives, cutting boards, or pots and pans to clean; no plastic wrap, foil or plastic storage containers to mess with. The Magic Bullet does it all. And because your Magic Bullet cups, Party Mugs, lids and blades go right in the dishwasher, cleanup is a breeze. So you save even more time!

Because the Magic Bullet is intended for everyday use, it has been designed to be compact so that it easily fits on any countertop, always right where you need it. And only the Magic Bullet comes with the ingenious accessories that turn it into the Bullet Blender, a full-size blender perfect for creating family-size batches of your favorite drinks, and the Bullet Juicer, ideal for turning fresh fruits and vegetables into delicious, nutritious juices the whole family will love.

We sincerely hope you enjoy using your Magic Bullet as much as we do. We’re confident that it will soon become your favorite kitchen helper … one that you will use every day!
For your convenience we’ve created a series of icons to make it easy to find the appropriate recipe and blade attachment.

- Use the **Cross Blade** attachment
- Use the **Flat Blade** attachment
- **Fat-Free**
- **Vegetarian**
- **Kid-Friendly**
- Contains alcohol, act responsibly
- **Travels well**
- **Caution**

**SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY**

Before using your Magic Bullet for the first time, rinse all of the pieces, except for the **Power Base**, in warm soapy water. Rinse and dry well.
**Magic Bullet Assembly**

**Tall Cup and Short Cup**
These cups are used to mix, cook and store your ingredients. They are dishwasher-safe (top rack only) and microwave-safe.

**Four Party Mugs with Comfort Lip Rings**
These Party Mugs turn your Magic Bullet into the Ultimate Party Machine. You can make and serve frozen party drinks right in the same mug. They even come with colored Comfort Lip Rings to cover the threads and let you know whose drink is whose.

*The Party Mugs are not microwave safe.

**Power Base**
The Power Base is the heart of the Magic Bullet. Simply place one of the Bullet Cups or Party Mugs onto the High-Torque Power Base and press. Nothing could be easier.

Caution: Do not submerge the Power Base in water and always unplug the Power Base before cleaning it.

**Cross Blade and Flat Blade**
The Magic Bullet comes with two blades: a Cross Blade for chopping, grating and blending foods such as onions, cheeses, meats and frozen drinks, and a Flat Blade for whipping cream and grinding hard foods like coffee beans and spices. Both blades are dishwasher-safe. In the base of the blades, there is a plastic gasket that creates an airtight fit with the Magic Bullet cups. After washing a blade, check to make sure the gasket is still inside as the heat from some dishwashers can cause them to become loose.

**Magic Bullet Blender and Lid**
The full-size Blender attachment has all the power and capacity of an expensive, conventional blender, but the Magic Bullet’s version only takes up as much counter space as a coffee mug. Use your Magic Bullet Blender anytime you need to whip up family-size batches of milkshakes, pancakes batters, or to make big batches of your favorite frozen cocktails at your next Bullet Bash. The Blender Lid comes with a pop-top for slipping in ingredients while the motor is running, mess-free.

**Magic Bullet Juice Extractor Kit**
These two pieces, the Extractor and Plunger, transform your Magic Bullet into the Magic Bullet Juicer that does the same job as those large expensive juicers … but unlike the big extractors, the Magic Bullet Juicer cleans up in seconds! Each piece is dishwasher-safe!

**Shaker/Steamer Tops**
Your Magic Bullet comes with two handy Shaker/Steamer Tops that are used for steaming foods in the microwave, or as shaker tops. The Shaker/Steamer Top with the large holes is for coarse ingredients such as Parmesan cheese, the other is for finely ground spices such as cinnamon or nutmeg.
**Stay-Fresh Re-sealable Lids**
With the Magic Bullet — your personal, versatile, countertop magician — you can prep, cook and store your food in the very same vessel. No plastic wrap or storage containers are needed to keep your leftovers fresh. Your Magic Bullet comes with two Stay-fresh Re-sealable Lids that fit right on to the Short and Tall Cups, and Party Mugs to keep your leftovers fresh for days.

*Only use the Shaker/Steamer Tops to heat food in the microwave.*

**Remarks:**
- Tall cup holds 20 oz
- Short cup holds 12 oz
- Blender holds 56 oz
- Party mugs holds 16 oz

**Using the Magic Bullet**
Using the Magic Bullet is as easy as 1, 2, 3 …

1. Load the ingredients into the **Short Cup, Tall Cup,** or **Party Mug.**
2. Twist on the **Cross,** or **Flat Blade** until the blade and cup have a tight seal.
3. Line up the tabs, place the bullet on the **Power Base** and press down on the cup to turn it on.

**Here’s how it works:** As long as you’re holding it down, the Magic Bullet is on. When you want the blades to stop, simply let go.

“**Lock On**” mode: For hands-free operation, press down and gently turn the cup clockwise until the tabs lock under the lip of the **Power Base.** Once you are in **Lock On** mode, the motor runs continually. To turn it off, simply twist the cup back counter-clockwise and release the cup.

**Caution:** Never put your hands or utensils near the moving blades and never use your hands or utensils to press the activator buttons down while the **Power Base** is plugged in.

**Caution:** If the blade stops in **Lock On** mode, unplug the Magic Bullet immediately. Sometimes, especially when the motor is coming up to speed, a hard ingredient, such as a carrot chunk, can get stuck in the blade and stop it from turning. If the blade stops, UNPLUG THE MAGIC BULLET IMMEDIATELY. Take the blade/cup assembly off and give the ingredients a good shake to unblock the
Using Your Magic Bullet

blade. If the blade still seems obstructed, twist off the blade and carefully (it's sharp) spin the blade manually. Once the blade will spin, plug the Magic Bullet back in and try again — you should be good to go.

*Never run the Magic Bullet for more than one minute at a time*, as it can cause permanent damage to the motor. If the motor stops working, unplug the Power Base and let it cool for a few hours before attempting to use it again. Your Magic Bullet has an internal thermal breaker that shuts the unit off when it overheats. Letting the thermal breaker cool down should allow it to reset.

Choosing the Right Blade

The Magic Bullet comes with two blades:

**Cross Blade**
The Magic Bullet Cross Blade is used for ...

- Chopping — Foods like onions, garlic and carrots, and for making dips such as salsa, bean dip, or gazpacho.
- Blending — The Cross Blade pulverizes ice for smoothies, frozen cocktails and milkshakes.
- Mixing — Batters for pancakes, muffins and quick breads are mixed in seconds.
- Grating — Foods like hard and soft cheeses and chocolate are grated in just seconds.
- Pureeing — Dishes such as hummus, all-natural soups, and baby food are creamy smooth in seconds.
- Shaving Ice and Frozen Fruits — For tasty treats such as snow cones or fruit sorbets.
- Grinding Meats — Delicious chicken and ham salads or pâtés are ground in seconds.

**Flat Blade**
The straight Flat Blade is used for ...

- Grinding and Chopping harder, single ingredient items such as:
  - coffee beans
  - nuts
  - cinnamon sticks
  - dried fruit

- Or Whipping foods such as:
  - homemade whipped cream
  - cream cheese schmears
  - butter

Magic Bullet Techniques

**The “Pulse” Technique**

Because the Magic Bullet’s motor is so powerful, if you aren’t careful you can quickly overprocess food and turn it into mush. That is why when you want to make foods such as chunky salsa, or coarse chopped onions, the Pulse technique is key.

Pulsing takes a tiny bit of getting used to, but once you get a feel for it, you’ll be a Pro in no time!

To Pulse you simply press down on the cup very quickly and immediately release. For foods that you want coarsely chopped, a quick tap on the top of the cup is all you need. Then let the blades come to a complete stop and tap again until you get the consistency you desire.
The secret: The trick to successful pulsing is to make sure that the machine doesn’t accidentally slip into lock on mode. To avoid this, simply use your other hand to apply counter-clockwise pressure on the cup as you pulse.

To start … hold the cup at the base and apply counter-clockwise pressure to it to keep it from locking on.

Then … with your other hand, tap the top of the cup and immediately release. Continue pulsing until you get the consistency you want.

The “Shake” Technique
Sometimes, when you are working with thicker ingredients, like those in chicken salad (Page 65) or marinara sauce (Page 69), the density of the mixture can make it hard for the ingredients toward the top of the cup to make it down to the blade. If some of your ingredients are having a hard time making it down to the blade, simply use this shake technique.

The “Cocktail” Shake: When making smoothies, dips or other recipes where you are using the bullet in lock on mode, simply …

While in lock on mode … pick up the whole cup and power base and shake it like a cocktail shaker.

Repeat … if necessary until you achieve the consistency you want.

The “Shakin’ Pulse”: When you need to shake ingredients that you want coarsely chopped, like salsa or meat salads, you are going to want to use the shakin’ pulse technique.

First … make sure the hand holding the cup is applying counter-clockwise pressure to keep it from locking on.

Then … give the bullet a strong downward shake to throw the ingredients into the blade, and pulse at the bottom of the shake.

Repeat … until you get the right consistency.

Caution: The power base motor must be off and not running when using the shake technique.

The “Tap” Technique
If you have a problem with sticky ingredients clinging to the side of the cup instead of being recirculated into the cutting zone …

First … take the cup off the power base and tap the cup and blade assembly on the counter to force the ingredients down into the blades.

Then … replace the cup and blade assembly to the power base and finish processing.
Chopping Onions and Garlic

With the Magic Bullet, chopping onions and mincing garlic is effortless. No more tears, no more stinky hands and no more knife and cutting board ... you are literally seconds away from chopped, minced, even pureed onions and garlic.

First ... prep the onions or garlic by removing any skin and making sure the pieces will fit into the Magic Bullet cup.

Next ... Place the whole onions, onion pieces, or garlic into the Short Cup and twist on the Cross Blade.

Then ... Give it several very quick Pulses. Remember to apply a bit of counter-clockwise pressure to the cup to keep it from locking on (see the Pulse technique on Page 17). With the other hand, give it a quick tap and release as soon as you hear the motor start. For coarser onion or garlic chunks, Pulse only a few times. For a minced consistency, Pulse five or six times. And for a smooth puree, just keep Pulsing, or Lock On (see Page 15) until you've achieved a smooth, thin consistency.

When chopping onions and garlic, you may find the Tap Technique (Page 19) helpful.

---

Smoothies

The Magic Bullet is perfect for creating delicious, satisfying, frosty smoothies and protein drinks. The best part is that you blend your ingredients and drink your smoothie out of the very same dishwasher-friendly cup ... no mess! Plus, the power of the Magic Bullet pulverizes ice in a way few blenders will.

First ... Add your favorite smoothie ingredients and ice into the Tall Cup, or Party Mug, and twist on the Cross Blade. (See recipes on Page 84.)

Then ... Place the cup onto the Power Base, push down on the cup and twist clockwise until the tabs of the cup fit under the lip of the Power Base and the motor is running consistently (Lock On mode).

Keep blending ... until you achieve a smooth consistency. The thickness of the drink will depend on the ingredients you use. You'll usually be able to hear when it's done. When all the ice is crushed, the grinding sound will stop and you'll hear a nice even whirring sound.

If your smoothie is so thick that the ice or fruit is having a hard time reaching the blade, add more liquid and continue blending.

Experiment with different smoothie ingredients. Smoothies are all about throwing whatever fruits, juices, yogurts, or whatever you have around the house, into a cup and giving it a whirl. Feel free to experiment with different ingredients.

To improve the performance of your Magic Bullet:

When crushing ice, use the cross blade with either the Party Mugs or the Blender Jug. Do not fill the container with more than one third ice. Use “Pulse Blending” mode, do not use the “Lock On” mode.

If ice gets stuck under the cross blade, lift the container off the Power Base, give the container a shake and then continue blending.
Frozen Drinks

When it’s frozen drink time your Magic Bullet is, hands down, the Ultimate Party Machine! Because the drinks are so quick and easy to make, everyone can have their favorite frozen cocktail. Plus, you can make the drinks right in the Party Mugs, then twist on your favorite-color Comfort Lip Ring, so everyone knows whose drink is whose. Partying has never been easier — or more fun!

First … Add ice to the Party Mug (or Tall Cup).

Next … add your favorite ingredients (see page 45 for some of our favorites) and twist on the Cross Blade.

Then … Place the cup onto the Power Base, push down on the cup, twist to Lock On mode and blend until smooth.

Be Responsible … Everyone at Homeland Housewares encourages you to have a great time, but please do so responsibly. Do not drink and drive, and please be careful when you are consuming alcohol.

Notes … If your drink is so thick that the ice or fruit is having a hard time reaching the blade, add more liquid and continue blending.

Grinding Coffee

There is nothing better than a steaming cup of java made with freshly ground beans. Unfortunately, most bean-grinders are inconvenient and inevitably make a big mess on the countertop. Finally, with the Magic Bullet, grinding coffee is a breeze because you twist the blade off from the top, and the coffee is in the bottom of the cup. That means you don’t have to go through that whole flipping-the-cup-over-to-get-the-coffee-out ordeal that you do with the typical bean-grinders. Plus, because all the Magic Bullet parts are washable, you can wash away the flavored coffee tastes. Never again will your French Roast taste like French Vanilla!

First … Add coffee beans to the Short Cup and twist on the Flat Blade.

Next … Place the cup onto the Power Base.

Now … Pulse a few times, or Lock On, until the beans are ground to the desired texture.

Remember … the finer the grind, the stronger the coffee. If you want a milder brew, stop Pulsing when the beans have the texture of coarse sand. If you’re going for an espresso-like jolt, keep grinding until the beans become a fine powder.

Spring Suggestion … Check out Page 79 for some of our favorite coffee recipes.

Mixing Batters and Breads

Finally, there’s a way to make baked goods without all the stirring, whisking and chopping! The Magic Bullet makes the preparation and cleanup of baked goods a piece of cake. Pancakes, muffins, breads and more have never been faster — or fluffier! What we like to do is start with instant batter mixes and then make them fancy by adding tasty ingredients like nuts, cinnamon or apple to the batter. Since it’s so quick, everyone can have the add-ins they like.

First … Add the ingredients into the Magic Bullet Tall Cup, or Blender, depending on the size of the batch.

Then … Blend the ingredients until smooth.

When using add-ins … The power of the Magic Bullet will mince add-ins into tiny little pieces — which is great for flavor, but you
may want bigger, chunkier pieces as well. For example, when making blueberry muffins, we recommend that you add about half of the blueberries you intend to use in with the batter to be blended, then add the other half after the batter is blended. Just twist off the blade, add the whole berries, twist the blade back on and Shake cocktail shaker style a few times. That way you get fantastic blueberry flavor mixed right in with the batter, and delicious whole blueberries throughout the muffins for wonderful texture. You can use this technique with nuts, raisins, chocolate chips, whatever you desire.

**Chopping Fresh Herbs**

Finally, an effortless way to get all of the zesty, pungent flavor of fresh chopped herbs, without spending an hour at the cutting board. Now, in just seconds, you can make any meal taste like it was prepared by a gourmet chef.

**First …** Add several sprigs of your favorite herb to the Short Cup.

**Then …** Twist on the Cross Blade and give it several quick Pulses. Remember to apply a bit of counter-clockwise pressure to the cup to keep it from Locking On (see the Pulse technique on Page 17.)

Adding a pinch of fresh dill, parsley, chives, or basil over soups, mashed potatoes, salads — literally any dish you can think of — adds such zing to the flavor of the dish and just enough “chichi-ness” to make your family and guests feel like you’ve pulled out all the stops.

**Grinding Spices**

Now it's easy to spice up your life ... just use your Magic Bullet. No pre-ground spice can hold a candle to a freshly ground blend; you have no idea what you've been missing. In seconds you can have pancakes sprinkled with fresh cinnamon, or eggnog with a pinch of fresh, zesty nutmeg ... the possibilities are endless, mouth-watering and effortless. And with the ingenious Shaker Tops, you can serve right to the table. Bon appetit!

**First …** Add your favorite fresh spice to the Short Cup.
**Next …** Twist on the Flat Blade and grind until you’ve created a slightly textured powder.
**Then …** Twist on the Shaker/Steamer Top with the two sets of small holes and sprinkle to your heart’s content.

**Seasoned Butters.** With almost no effort you can look like a culinary school graduate ... by whipping up a few seasoned butters. Just add chives, garlic, honey, mustard seed, whatever you like, to slightly softened butter and whip in your Short Cup with the Flat Blade. You’ll create a spread that will make everyday bread and butter a five-star experience. Add a pat to the top of cooked fish, chicken or into soups ... brilliance!

**Grating Cheeses**

Chopping cheese is a time-consuming process, and pre-shredded cheese can be expensive. Now, with your Magic Bullet, you can effortlessly cut up cheese in less time than it takes to find your cheese grater. You can even twist a handy Shaker/Steamer Top onto the Magic Bullet cup and turn your Magic Bullet cup into a cheese shaker!
Magic Bullet Basics

First ... Add your favorite cheese to the Short Cup.
Next ... Twist on the Cross Blade and grind until you’ve created a coarsely textured powder.
Then ... Twist on the large-holed Shaker/Steamer Top.

Grinding Meats

Until now, grinding meat required special equipment and a lot of effort. Now, with the Magic Bullet, you can grind meat for fresh sirloin burgers, meat sauces and party patés right in your Magic Bullet ... in just 10 seconds or less.

First ... Add the meat to the Tall Cup and twist on the Cross Blade.
Then ... Pulse (Page 17) until you get the consistency you want. Since meat is very dense, you may need to use the Tap technique (Page 19) to make sure every bit gets ground.

**Deviled Ham.** Check out the Deviled Ham recipe on Page 68 for a scrumptious ground meat recipe.

Whipping Cream

Light, fluffy, delicious whipped cream used to require a bowl, a whisk and a heck of a lot of elbow grease. Now with the Magic Bullet, it’s never been easier, or faster, to create mountains of cloudlike whipped cream.

First ... Add heavy cream to the Short Cup.

Then ... Twist on the Flat Blade and whip until smooth. You’ll hear it when it’s done; the sound of the motor will change to a hum.

See the Magic Bullet coffee drinks section on Page 79 for a number of tantalizing coffee recipes that use whipped cream, or take a look at the dessert section on Page 74.

Cooking and Storing Leftovers

Cooking in the Magic Bullet Cups

Unlike conventional blenders or food processors, the Magic Bullet’s job isn’t done once the ingredients are blended. Once you’ve prepared your food, your Magic Bullet is then ready to cook it as well! Just remove the blade, twist on a Shaker/Steamer Top and place the cup in the microwave. Seconds later, you’ll have steaming hot soups, rich and hearty pasta sauces or delicious melted cheeses, perfect for pouring over tortillas or vegetables, all without dirtying a dish, and with no pots and pans to clean!

First ... Blend or Pulse your ingredients together.

Then ... Remove the blade, twist on a Shaker/Steamer top (do not put the blades in the microwave) and place the cup in the microwave.

**Cook until ready, then ...** Remove with an oven mitt and serve.

**Caution**

The single most important rule to remember for using the cups in the microwave: Take off the blade! The blades have metal in them and we all know that metal and microwaves don’t mix. Never microwave food using the airtight lids, always use the Shaker/Steamer Tops. Also, remember that the contents and the cup will be hot, so always use an oven mitt.

Storing Leftovers in the Magic Bullet Cups

At Homeland Housewares, we understand that your time is valuable; that is why we’ve made Stay-Fresh Re-sealable Lids that twist right onto the Magic Bullet cups. Now you can prepare, cook and store your food all in the same vessel! No unnecessary dishes to clean, no plastic wrap, foil or plastic containers to deal with ... just twist on a stay-fresh lid and pop your leftovers in the refrigerator. You can even bring your leftovers to work or school, by just tossing the sealed cup into your bag and go! Then at work, you can reheat your leftovers in the microwave — all in the same cup!
**Easy Clean Up**

**Cleaning the Magic Bullet**
Everyone hates cleaning up, which is just one more reason the Magic Bullet is so great. You can make and cook fresh homemade spaghetti meat sauce (see recipe on Page 69) from scratch and only use one tall Bullet cup! Imagine delicious, piping hot pasta sauces, salsa, fresh soups and more, all prepared with no cutting boards, no pots and pans, just a single cup and blade to put in the dishwasher. It doesn’t get any easier than that.

*Caution*
Always unplug the Magic Bullet when cleaning or assembling.

**Washing Magic Bullet Attachments**
It is so easy … Just place any of the pieces (except for the **Power Base**) on top shelf of the dishwasher, or hand wash with warm soapy water and rinse.

*Note*
Always make sure the gaskets are still inside after cleaning. The heat from some dishwashers can cause them to become loose and pop out.

*Tip*
**Stubborn cleanup** When you let ingredients dry in the Magic Bullet, or when you’ve melted cheese in the cups, make your cleanup a snap by filling the cup with soapy water and microwaving it for one minute. That will loosen the stuck ingredients and with a light scrub, you’ll be all done.

**Cleaning the Magic Bullet Power Base**
For the most part the **Power Base** doesn’t really get dirty, but if you neglect to twist the blade onto the cup tightly, liquids can leak out and get into the base and activator buttons. Here’s how to clean it up.

**Before you begin …** The most important thing is to UNPLUG the **Power Base**.

**Then …** Use a damp rag to wipe down the inside and outside of the **Power Base**.

**Sometimes the base gets so dirty …** that the little white sliders that activate the Magic Bullet get sticky. This can cause the motor to continue to spin even after you’ve released the cup. When this happens, start by UNPLUGGING the **Power Base**.

**Then …** Double-check that you’ve UNPLUGGED the **Power Base**, and use a damp rag to soften up the gunk around the activators as you work the activator buttons up and down until they move freely again.

**Caution**
**NEVER SUBMERGE THE POWER BASE IN WATER OR PLACE IT IN DISHWASHER**

**Caution**
Never put your hands or utensils near the moving blade and never use your hands or utensils to press the activator buttons down while the Power Base is plugged in.
When it’s time to whip up big batches of foods like pancakes, milkshakes, or frozen drinks, the Magic Bullet Blender has all the power and capacity of those expensive, bulky blenders without taking up all that counter space. The **Blender Lid** has two pouring spouts, one for straining and one for pouring, and a pop-out top, so you can add ingredients as you blend. Plus, everything is dishwasher-safe (top rack only), so cleanup is fast and easy.

**Assembling the Magic Bullet Blender**

**Just ...** Twist the **Cross Blade** onto the bottom of the blender pitcher.  
**Then ...** Place the blender on the Magic Bullet base.  

**Using the Magic Bullet Blender**

The **Magic Bullet Blender** is just like regular blenders, without all the confusing buttons.

**Simply ...** Place the assembled **Blender** onto the **Power Base**.  
**Then ...** Push down on the **Blender** and twist clockwise until the tabs lock under the lip of the **Power Base (Lock On mode)**.

**And ...** Put on the **Blender Lid** and blend.

**Notes:**

Never run the Magic Bullet for more than one minute at a time, as it can cause permanent damage to the motor. If the motor stops working, unplug the **Power Base** and let it cool for a few hours before attempting to use it again. Your Magic Bullet has an internal thermal breaker that shuts the unit off when it overheats. Letting the thermal breaker cool down should allow it to reset.

Now you can make freshly squeezed juice every day of the week, at home, without all of the added sugar found in many store-bought juices and without the mess and big production that comes with most traditional juicers. In the **Magic Bullet Juicer**, making delicious, nutritious fresh juices like orange or pineapple, and instant energy cocktails is a snap.

**Assembling the Magic Bullet Juicer**

**First ...** Twist the **Cross Blade** onto the bottom of the **Blender**.

**Then ...** Insert the **Extractor** down the center of the **Blender** making sure to line the three notches up with the three ribs on the inside of the **Blender**.

**Next ...** Place the lid onto the **Blender** and align either the straining pouer or regular pouer up to the spout. Make sure the lid is locked on, it holds the **Extractor** insert in place.

**And then ...** Place the **Blender** on the Magic Bullet base.

**Using the Magic Bullet Juicer**

**Before you begin ...** Select your juice ingredients, make sure they are sized to fit into the **Extractor** and place them within arms reach of your **Magic Bullet Juicer**.

**When you're ready to start juicing ...** Remove the pop-top from the lid of the **Blender**, place the assembled **Magic Bullet Juicer** onto the **Power Base**, press down and turn the **Blender** clockwise until it is running in hands-free **Lock On mode**. To avoid jamming the blades, which can cause serious motor damage, make sure the motor is running BEFORE you add any ingredients into the juicer.
Then ... Place ingredients through the pop-top, down the center of the Extractor.

Push the ingredients ... down into the blade with the Plunger tool. The juice will accumulate in the pitcher around the Extractor insert.

Then ... Pour the juice into a glass with the juicer assembled as is, without removing or jostling the Extractor. Notice how the juice is on the outside of the Extractor and the pulp is on the inside? You need to be careful to keep the juice separate from the pulp. Pour the juice out carefully.

Caution: If the blade stops in Lock On mode, unplug the Magic Bullet immediately. Sometimes, especially when the motor is coming up to speed, a hard ingredient, such as a carrot chunk, can get stuck in the blade. If the blade stops, UNPLUG THE MAGIC BULLET IMMEDIATELY and clear the blade before proceeding. Running the machine when the blades are obstructed can ruin the motor.

Never run the Magic Bullet for more than one minute; it can cause permanent damage to the motor. If you still want more juice after 60 seconds of juicing, simply stop for a few seconds, then continue for another minute. If you do overheat the motor and it stops, unplug the Power Base and let it rest for a few hours before attempting to use it again.

Our team at Homeland Housewares has had the pleasure of personally testing every single recipe suggestion in this cookbook. Out of the thousands of delicious delicacies you can prepare in the Magic Bullet, we've chosen our favorite “10 seconds or less” recipes to share with you. We've added our notes, serving suggestions and tips so you can get the most out of each recipe.

The Magic Bullet is all about creating delicious meals, drinks and snacks in 10 seconds or less, with virtually no clean up. During our recipe creation and selection process, we discovered certain ingredients made the 10 second recipes even easier, faster and neater. Here they are:

Boiler Onions
Boiler onions are flavorful little onions that are about an inch to an inch and a half in diameter. You can find them in the produce section of most grocery stores. They are perfect for the Magic Bullet because you can throw them in whole, no cutting board, no knife ... just toss them in the Magic Bullet cup and you're ready to go. One boiler onion (they range in size) is the equivalent of about 1/4 cup of onion.

Pre-peeled Garlic In Jars
Some genius decided to pre-peel garlic and sell it in jars. You can find this pre-peeled garlic in the produce section of most grocery stores. When a recipe calls for a clove or two of garlic, just open up the jar and toss them in the cup. All the flavor, without all the work...it doesn't get any easier!

Cherry Tomatoes
Cherry tomatoes are not only perfectly sized to throw right into the Bullet Cups, they are extremely flavorful. Our recipes are based on the cherry tomatoes that are about an inch in diameter. On average about 4-6 cherry tomatoes equals a 1/4 cup of tomato.
10 Second Recipes

**Baby Carrots**
Cutting and peeling carrots is tough work. We highly recommend using the pre-peeled, baby size carrots that are available in the produce section of most grocery stores. These tiny carrots are sweet, tasty and perfectly sized for the Magic Bullet cups.

And remember, to make things as easy as possible for you, we’ve created a series of icons so, in a glance, you can learn about a recipe. The key of icons used in this book can be found on page 10.

For your convenience, we’ve also created an index that categorizes the recipes by Fat-Free, Kid-Friendly and more. The index can be found on Page 93.

We want you to try the recipes in this cookbook because, well, we’ve devoured every one of them and know how good they are! We also want to make sure you understand that with The Magic Bullet, the possibilities are endless. Because everything is so quick and easy to make, it’s the perfect device for experimenting.

Don’t hesitate to add or omit ingredients and if you want to vary a recipe, or totally rework it … go for it. We encourage that type of Magic Bullet bravery. Go ahead and create your very own Magic Bullet masterpieces.

Party Dips

Why spend a fortune on mediocre store-bought dips when you can make your own tantalizing party spreads in less than 10 seconds, and for a fraction of the price. Each of these dips has been selected for flavor, popularity and ease. Go ahead and call some friends, it’s time to throw a Bullet Bash!

**Seven-Second Salsa**

No party is complete without salsa! This chunky, delicious blend is a flavor fiesta. Your guests will be talking about it for weeks to come!

1-2 boiler onions or 1/4 of a regular sized onion (about 1/4 cup)
1/6 to 1/4 of a jalapeno pepper
8-10 cherry tomatoes or 1 regular size tomato (about 1/2 cup)
1-2 cloves garlic
small sprigs of cilantro (optional)
salt and pepper to taste

**First …** Place all ingredients, in the order they are listed, into the Tail Cup. (You may have to cut the tomatoes a bit, depending on the size you choose.)

**Then …** Twist on the Cross Blade and place the cup onto the Power Base.

**Next …** Give it several quick Pulses. Salsa should be chunky, so be careful not to over-process it. Remember to apply a bit of counter-clockwise pressure to the cup to keep it from Locking On (See Pulse technique on Page 17).

**Repeat the quick Pulse technique …** until you achieve a blended yet chunky texture.
When you pour your fresh salsa in a bowl, you may notice the power of the Magic Bullet has made it a little foamy. Don’t panic — the foam is actually tiny air bubbles that go away after a few minutes. If it bothers you, lay a paper towel down on top of the salsa and gently blot ... no more foam. Also, when you make salsa with a knife, you typically seed the tomatoes first. Since we’re throwing the tomatoes in whole, there may be more juice than you're used to. If so, just twist on the Shaker/Steamer Top and strain out some of the extra liquid.

Serve your salsa with tortilla chips, slices of Italian bread, or as a dip for triangles of quesadilla (see recipe Page 43).

Chunkier Salsa. For even chunkier salsa, after you’re done Pulsing, stir in some canned (drained) black beans and a bit of canned corn — a fiesta for the taste buds!

Hallelujah Hummus

We love hummus because it’s so rich and creamy! This traditional Greek delicacy can be served as a dip or a side dish.

1/4 cup chicken (or vegetable) stock
14 oz. can chickpeas (garbanzo beans),drained
3 cloves garlic
2 Tbs. lemon juice
3 Tbs. tahini (sesame paste)

First … Add all ingredients into the Tall Cup.
Next … Twist on the Cross Blade and blend until smooth.
Then … Salt and pepper to taste.

Hummus is best served cold, with warm triangles of pita bread. The traditional way to serve it is to pour the hummus into a bowl and drizzle it with olive oil, then sprinkle the top with paprika.

Fat-Free Hummus

Dig in and enjoy this delicious hummus without worrying about your waistline!

splash of fat-free chicken (or vegetable) broth
1 drained 14 oz. can chickpeas (garbanzo beans)
2 Tbs. lemon juice
2 cloves garlic
sprinkle of paprika
salt and pepper to taste

First … Add all ingredients except for paprika into the Tall Cup.
Next … Twist on the Cross Blade and blend until smooth.
Then … Salt and pepper to taste, and sprinkle with paprika.

Hummus is best served cold, with warm triangles of pita bread.

Before-You-Know-It Bean Dip

Not all bean dip comes out of that creepy little can. You can make hearty, delicious, all-natural bean dip in seconds.

1 (15 oz.) can black beans, drained
1/4 of a medium-sized onion
(about 1/4 cup)
1-2 cloves garlic
1/4 cup roasted red peppers (jarred)
1/4 cup (fat-free) chicken or vegetable broth
2 Tbs. balsamic vinegar
dollop of sour cream (optional)
cayenne pepper to taste (optional)

First ... Drain most of the liquid out of the canned beans.
Then ... Load all the ingredients, in the order they are listed, into the
Tall Cup.
And ... Twist on the Cross Blade and quickly Pulse (Page 17) until
you reach the desired consistency.

This dip is great, either chunky or smooth. If you want it
chunky, don’t overdo the Pulsing. Quickly Pulse, stop and let
the ingredients settle. Use the Tap technique (Page 19) to
speed up the settling process. Pulse again and repeat until you’ve
created the bean dip of your dreams!

This dip is great both warm and cold. If you go for the warm
version, try adding 1/4 cup of cheddar cheese to the
ingredients before you blend it. (If you don’t have room,
partially mix the ingredients, then add the cheese.) Take the blade
off, place the Shaker/Steamer Top on the cup and microwave for
about 2-3 minutes (until warm throughout). Give the dip another
quick Pulse or two, then serve immediately. The warm version goes
perfectly with nachos or sliced crusty Italian bread.

Use your favorite type of bean. Black beans can be
substituted with pinto beans, white beans, whatever you’re into.
Black bean sauce Add a cup of broth, then microwave to make a
perfect sauce for pouring over chicken or fish.
Black bean soup Add a cup of broth, then microwave to make a
zesty, flavorful soup — a great way to use any leftover dip. Throw in a
few shrimp for a real treat.

Speedy Guacamole

A little guacamole trivia: During Super Bowl 2002, football fans
consumed 13.2 million pounds of guacamole. Don’t deprive your
guests! With this simple, delicious recipe it’s easy to give the gift of
guacamole.

2 avocados
2-3 cloves garlic
squeeze of lemon or lime juice (optional)
1 boiler onion or 1/4 of a regular sized onion (about 1/4 cup)
4-6 cherry tomatoes or 1/2 regular size tomato (about 1/4 cup)
1-2 sprigs of fresh cilantro
1/6 of a jalapeño pepper (optional)
salt and pepper to taste

First ... Scoop out the meat of the avocados, discarding the pit, and
place it in the Short Cup.
Next ... Place the remaining ingredients, in the order they are listed,
into the Short Cup. (You may have to cut the tomatoes a bit,
depending on the size you choose.)
Then ... Twist on the Cross Blade and place the cup onto the
Power Base.
And ... Give it 3 or 4 quick Pulses until all the ingredients are
chopped and blended. Make sure to apply a bit of counter-clockwise
pressure to the cup to keep it from Locking On.
(See Pulse technique on Page 17).
Since guacamole is thick, you may need to use the Tap technique (Page 19) to make
sure everything gets completely chopped.

Guacamole tastes best when it’s
chilled. Serve with nachos, as a
taco or fajita topping, or add a
dollop to the top of a juicy burger and
dig in. Mm-mmm!
**Party Dips**

*Not everyone likes tomatoes and onion in guacamole* — feel free to omit them if you’d like. Or if you like tomatoes and don’t have any fresh ones around the house, you can use canned tomatoes.

**Appetizers**

Who needs a caterer when you can do it by yourself in 10 seconds or less? From breathtaking stuffed mushrooms to zesty chicken quesadillas, your guests will think you’re a culinary wizard when you create any one of these quick and easy masterpieces.

**Suddenly Stuffed Mushrooms**

What is it that makes stuffed mushrooms so special? We don’t know for sure, but we do know these puppies will be gone before you can blink an eye. Do your guests a favor — make two batches. Scrumptious!

- 10-12 large mushrooms
- 1/4 cup Ricotta cheese
- 1/2 cup fresh spinach
- 1 oz. Parmesan cheese
- 1 clove garlic
- 1 boiler onion or 1/4 of a regular sized onion (about 1/4 cup)
- splash of chicken (or vegetable) broth

Before you begin … Preheat the oven to 350 degrees.

Start off by … popping off the stems off of the mushrooms, making an area for the stuffing in the mushroom top.

Then … Load all the ingredients, except for the mushrooms, in the Short Cup and twist on the Cross Blade.

Pulse until … the consistency is slightly textured, but not quite smooth.

And … Spoon the mixed ingredients into the mushroom tops and cook on a lightly greased baking sheet for 15-20 minutes.
Nanosecond Nachos

“Na-cho” average appetizer; everyone loves nachos! A perfect party opener that’s quick, easy, inexpensive and delicious. What more can be said about this party favorite?

1 cup cheddar (or your favorite) cheese
1/4-1/2 of a jalapeño pepper

First … Load the ingredients into the Short Cup and Pulse a few times (you want the jalapeños to keep a little bit of chunky texture).
Then … Twist off the blade, and twist on a Shaker/Steamer Top.
Microwave … on high for about 1 1/2 minutes, until cheese is fully melted.
Pour … over tortilla chips. Serve immediately.

You can add anything you want to the top of your nachos. Guacamole, sour cream, black beans, tomatoes — even leftover chicken — are sure crowd-pleasers.

Cup cleaning made even easier! When it’s time to clean your Tall Cup, fill it 3/4 full with hot water, then microwave for 45 seconds. That will re-melt the cheese, making cleanup a breeze.

Badda-Bing Badda-Boom Garlic Bread

Homemade garlic bread has never been easier, or more flavorful. The perfect blend of butter, cheese and garlic in every bite … a real treat for the taste buds!

1/2 cup butter or margarine
2-3 garlic cloves
1 oz. Parmesan cheese
loaf of Italian (or French) bread

First … Add butter or margarine to your Short Cup and screw on Shaker/Steamer Top.

Then … Heat in the microwave unit the butter is melted, add garlic and cheese, then twist on Cross Blade.

Blend until … smooth and spread down the middle of a loaf of crusty Italian or French bread. (Cut it down the center, lengthwise.)

And … Toast open-faced until warm, then slice and serve!

Quickie Chicken Quesadilla

Interested in a nutritious lunch — or dinner — your kids will love? How about one that takes only seconds and has virtually no cleanup? This warm and cheesy Mexican favorite is perfect for kids, sports nights, snacks … anytime.
Dee-licious!

2/3 cup cheddar (or your favorite) cheese
1/2 cup cooked chicken
4-6 cherry tomatoes or 1/2 regular size tomato (about 1/4 cup)
2 flour or corn tortillas

Start by … Adding all ingredients except for...
Appetizers

the tortillas into the **Tall Cup** and twist on **Cross Blade**.

**Next** ... **Pulse** your ingredients (see **Pulse Technique** on page 17) being careful not to slip into **Lock On mode**. Because the ingredients are thick, you may want to use the **Tap** technique on page 19.

**Repeat the quick Pulse technique** ... until you achieve a blended but chunky texture.

**Spread the mixture** ... between the tortillas and heat in microwave (high) for 1 1/2 minutes, until fully heated.

**Use your leftovers** You can use any kind of leftover chicken you have, bbq, fried chicken, it all tastes great. Or, replace the chicken with ground beef, luncheon meats or any other left over meats you may have.

**Omit chicken and replace with veggies** Veggie quesadillas are just as delicious. Just add your favorite vegetables, like squash, onions and peppers, and dig in.

Most people skip breakfast not because they don’t want it, but because they don’t have time. Finally, with the Magic Bullet, you can create a hearty, satisfying breakfast without fear of being late for work and without coming home to dirty dishes. In seconds you can mix up fluffy egg dishes, piping hot muffins, breads, pancakes ... you name it. Plus, cleanup is as simple as opening the dishwasher and popping in a few items — a great way to start the day.

**In-a-Jiffy Flapjacks**

With the Magic Bullet, making pancakes is so quick and easy, everyone can have their favorite kind. Start by mixing up the basic pancake batter, then add whatever ingredients your heart desires. You can create delicious blueberry, fluffy apple cinnamon, and hearty banana nut pancakes all from the same basic pancake batter and all in just seconds ... so everyone gets to enjoy exactly the type of pancakes that they’re in the mood for.

- 1 cup milk  
- 1 egg  
- 1 cup pancake mix (Bisquick or any baking mix)

**First ...** Add milk and egg (or whatever ingredients your pancake mix requires) into the **Tall Cup**, then add pancake mix.  
**Next ...** Give the ingredients several quick **Pulses** until the batter is blended. (Do not overprocess or pancakes can get tough.)  
**Then ...** Pour 1/4 cup portions of batter onto a greased griddle/frying pan and cook over medium heat until the edges look dry, then flip and cook the other side until golden.
If you're feeding a crowd, double, triple or quadruple the recipe and use the *Blender* attachment for mixing — you can pour the batter right onto the griddle!

**Add a banana, a dollop of applesauce or a handful of blueberries to the mix before you blend ... divine!**

Make your own spectacular *Fruit Syrup* by adding a handful of frozen (or fresh) fruit to the *Short Cup* and blend with the *Cross Blade* until smooth. If you want it warm, microwave for 30 seconds. If you want it sweet, add a teaspoon of sugar.

### Blueberry Pancakes

**First ...** Throw a handful of frozen or fresh blueberries into the basic pancake recipe (above) and give a few quick *Pulses* to blend the batter and the blueberries.

**Next ...** Unscrew the top and add another small handful of whole blueberries, twist the lid back on and shake them together. (You don’t want to blend again. The idea here is to mix some whole blueberries into the blueberry-flavored batter.)

**Then ...** Pour 1/4 cup portions of batter onto a greased griddle/frying pan and cook over medium heat until the edges look dry, then flip and cook the other side until golden.

The Easy Omelet
Instead of the typical stuffed omelet, this easy-to-make version uses the power of the Magic Bullet to fully integrate the ingredients within your omelet mixture, so every forkful is simply bursting with flavor. No matter what kind of omelet you’re in the mood for, you’ll be eating like a king in no time at all, with virtually no cleanup.

Before you start ... mixing your ingredients in the Magic Bullet, put a little oil or butter in a frying pan and let it start to heat up over medium heat. It only takes a minute or two, so don’t start it too early.

Now ... Add the basic omelet and any additional ingredients in to the Short Cup and Pulse (see Pulse Technique on Page 17) until the ingredients are chopped.

Next ... Pour the omelet mixture into the heated, oiled frying pan.

Then ... Set the heat to medium low, put the cover on and cook until the omelet is set.

You might want to ... Use a spatula to pull a corner of the omelet back, letting any stubborn, uncooked egg roll over to the empty area of the frying pan.

The Traditional Omelet
If you’re the type that likes to have the ingredients folded into the middle of your omelet, this preparation style is for you. You’ve never had a lighter, fluffier omelet! Enjoy!

Before you start ... mixing your ingredients in the Magic Bullet, put a little oil or butter in a frying pan and let it start to heat up over medium heat. It only takes a minute or two, so don’t start it too early.

Then ... Add the basic omelet ingredients in to the Short Cup and whip until everything is mixed together.

And ... Pour the basic mixture into a heated, oiled frying pan. Set the heat to medium low and put the cover on.

Now ... Pulse a few times (see Pulse Technique on Page 17). Maintain a chunky texture.

And ... When your omelet looks set, add your filling mixture to one side of the omelet and fold the other side over. Heat the omelet for a few more minutes until the filling is warm and serve immediately.

For an even easier omelet, there are microwave-safe omelet cookers available in most department stores. You just pour in your Easy Omelet mixture and pull your fresh, flavorful, steaming hot omelet out of the microwave when it beeps. It doesn’t get any easier!

For a low-fat version, simply use fat-free cooking spray to grease the frying pan.

For an even lower-fat version, use egg whites only.

**Fat-Free version.** Use fat-free plain yogurt or skim milk instead of cream.

Gruel-less Gazpacho

This elegant and tasty traditional Italian soup is a sure crowd-pleaser. Absolutely perfect for a brunch appetizer. If you’re looking to impress your guests, make this gazpacho and it’s a slam dunk.

1 cup chicken stock

1/4 of a hothouse (English) cucumber
sprig of fresh chopped parsley

Sandwiches

Tired of the “same old, same old” for lunch? Sick of spending your hard-earned money on overpriced lunches because you don’t have the time to pack a lunch? Thanks to the Magic Bullet, now you can have gourmet, transportable, delicious, even fat-free sandwiches that take seconds to make, and cost a fraction of what you pay for takeout.

Six-Second Chicken Salad

In all honesty, we had forgotten how simply divine classic chicken salad can be. The nuts and apple create a sandwich spread that is irresistible.

1/4 of a cored apple (about 1/4 cup)
slice of onion (about 1/8 cup)
1 cup cooked chicken (leftovers, even luncheon meat)
2 Tbs. walnuts
1-2 Tbs. mayonnaise

First … Add the ingredients in the order they appear to the Short Cup and twist on the Cross Blade.
Then use … the quick Pulse technique (Page 17) to chop and mix the ingredients. Just press down on the cup and release the pressure immediately, pause and let the ingredients settle (or use the Tap technique on Page 19), then quickly Pulse again until you’ve reached a good consistency.
Remember to … Apply a bit of counter-clockwise pressure to the cup to keep it from Locking On. (See Pulsing techniques on Page 17)
Then … Spread between two slices of bread and enjoy.
Even the Magic Bullet can't defy the laws of physics, so if you've overloaded the cup, or if your chicken salad ingredients are too dense for the ingredients at the top of the cup to reach the blade, we recommend you try the Shake or Tap techniques on Page 18 and 19. If it's really thick, scoop out the finished chicken salad that has accumulated at the bottom, put it in a bowl, then continue Pulsing the remaining ingredients. Once everything is chopped, you can add it all back together in the cup and give it a quick Pulse to mix everything together.

Chicken salad is very versatile. Feel free to add other things into your list of ingredients. Try sprinkling in a little nutmeg or cinnamon. Serve on toast, or add a scoop on top of a mixed green salad. Have you ever seen a more satisfying way to eat leftovers? Bon appetit!

**Fat-Free version.** Use fat-free chicken broth and fat-free ranch dressing, or fat-free plain yogurt, instead of mayonnaise for a zesty fat-free lunch or dinner.

**Stuffed tomatoes or peppers.** Hollow out the inside of a tomato or pepper and fill with chicken salad ... a bread-free, delicious and attractive lunch.

To create **Mick's Curry Chicken Salad**, skip the apples and walnuts and add a dash or two of curry powder.

**Egg Salad Express**

Delicious, flavorful egg salad without the slicing and dicing — how wonderful! A quick and tasty lunch that parents and kids will thoroughly enjoy.

- 2 hard-boiled eggs
- 1 stalk celery
- slice of onion (about 1/8 cup)
- 1-2 Tbs. mayonnaise
- pinch of mustard powder (optional)

**Before you begin …** Break the celery stalks in half and pull to remove as much of the celery string as possible.

**Then …** Add the ingredients in the order they appear to the **Short Cup** and twist on the **Cross Blade**.

**Pulse using the quick Pulse technique …** just press down on the cup and release the pressure immediately, pause and let the ingredients settle, than quickly **Pulse** again until you've reached a good consistency.

**And serve.**

Spice things up by adding a little sweet pickle relish, or add a dab of Dijon mustard to your ingredients before you blend. Sprinkle a little paprika over the top and grab yourself a napkin because this sandwich isn't going to be around long enough to touch the plate!

**Fat-Free version.** Use mustard and a splash of chicken or veggie broth instead of mayonnaise for a tasty, fat-free version.
**Stuffed tomatoes or peppers.** Hollow out the inside of a tomato or pepper and fill with egg salad … a bread-free, delicious, attractive lunch.

### Lickety-Split Deviled Ham

1/3 cup chicken broth
1 Tbs. Dijon mustard
slice of onion (about 1/8 cup)

**Pinwheel Sandwiches.** Deviled ham is perfect for pinwheel sandwiches, just spread the ham and some cream cheese evenly over lavash bread (or tortillas) and roll up into a log.
Slice into 1/2-3/4-inch rounds (you may need a toothpick to hold the wheels together) for a lovely lunchtime treat.

### Pasta Sauces

Each of these pasta sauces is so quick and easy that everyone can have their favorite. In less time than it takes to heat up a jar of sauce on the stove top, you can whip up a batch of creamy Alfredo Sauce, a serving of mouth-watering Pesto Sauce and a rich, hearty Meat Sauce. As if that isn’t enough, cleanup is a breeze. You mix and heat in the same cup. Just throw the cup in the dishwasher and you’re done. No cutting boards, pots or pans! Hooray!

reached a good consistency.

Then ... Twist off Cross Blade and twist on a Shaker/Steamer Top.

And ... Place cup the in microwave and cook on high for 8 to 10 minutes, until the meat is cooked. Every microwave is different, so keep an eye on things after 7 minutes; if it looks like your liquid is starting to dry up, use an oven mitt to take the sauce out and give it a stir, and heat for about 30 more seconds. (You may want to add a little water or wine.)

Stir ... and serve over hot pasta.

Cooking the meat right in the sauce gives it an unusual texture, although the taste is out of this world because all of the flavors are blended together. If the texture bothers you, microwave the meat in the Bullet cup first, then make as usual. This recipe makes two good-sized servings of sauce. For larger batches, double the ingredients and use the blender attachment.

Add a little fresh Parmesan cheese to the top of your piping hot pasta dish! Just add a chunk of Parmesan to the Short Cup and twist on the Cross Blade. Chop until the consistency is a coarse powder. Twist on a Shaker/Steamer Top, sprinkle over the top of your pasta and enjoy!

Use leftover meat If you have leftover cooked meat ... follow the same instructions as above but replace the raw hamburger with your leftover chicken, steak, burgers, sausage, pork — whatever you’ve got. You’ll only need to microwave your sauce for about 6 minutes.

Make Bolognese sauce If you want Bolognese Sauce, just add 1/2 cup of heavy cream and another splash of red wine to cooked sauce and Pulse one or two times.

Start by ... grinding your own coffee beans using the **Flat Blade**. The finer the grind the stronger the coffee, so blend into a coarse sand texture for lighter brews, or a fine powder for strong coffee.  
Then ... Add the orange juice and lemon juice in the Tall Cup, then fill the rest of the cup to the top with coffee.  
Next ... Add whipping cream to the **Short Cup** and blend with the **Flat Blade** for about 5 seconds.  
Then ... Pour the coffee mixture into 2 coffee cups, add whiskey and top with whipped cream.

This makes two servings. For one serving, just reduce each ingredient by a half. For four servings, double the ingredients.
Smoothies

The Magic Bullet is perfect for creating delicious, satisfying, frosty smoothies and meal replacement drinks. The best part is that you blend your ingredients and drink your smoothie out of the very same dishwasher-friendly cup ... no mess! Plus, the power of the Magic Bullet distributes flavor in such a way that every molecule of your smoothie is bursting with flavor.

**Strawberry Banana Smoothie**

A deliciously satisfying, fruity drink that is perfect for any time of the day.

- handful of fresh or frozen strawberries
- 1 banana
- 1 cup ice
- splash of orange juice

**First** ... Add all ingredients to the Tall Cup or Party Mug and twist on the Cross Blade.
**Then** ... Lock On and mix until smooth.
**Next** ... Drink up!

You can leave the tops on the strawberries; that's where a lot of the nutrients are.

**Mixed Berry Smoothie**

This tasty smoothie is jam-packed with fresh berry flavor. This is one your kids will love.

- handful of fresh or frozen mixed berries
- 1 banana
- 1 cup ice
- splash of orange juice

**First** ... Add all ingredients to the Tall Cup or Party Mug.
**Then** ... Lock On and mix until smooth.
**Next** ... Serve.

**Choco-Berry Protein Smoothie**

Meal Replacement

This chocolate and blueberry flavor combination is worthy of celebration; how can something so healthy taste so good?

- 1/2 cup milk (fat-free for healthiest)
- 1 handful of fresh or frozen blueberries
- ice cubes
- 2 (or more) scoops chocolate protein powder
- 1/2 medium-sized banana

**First** ... Fill the Tall Cup of Party Mug halfway with ice.
**Then** ... Add the remaining ingredients to the Tall Cup or Party Mug.
**Next** ... Lock On and mix until smooth.
**And** ... Serve.

This recipe makes one serving. For more than one serving, multiply each ingredient by the number of servings you want to make and use the blender attachment for mixing. This is a basic meal replacement drink; feel free to adjust the ingredients to fit your specific diet plan.

**Tip**

A lot of the popular 5-6 meal a day diet plans call for meals and snacks of lean protein and complex carbs, these meal replacement drinks are a tasty, easy way to lose weight!

**Fresh Orange Juice** ![Fat](image)

Straight from the heavens, this 100% pure, fresh orange juice is absolutely divine and so easy to make, you can have it every morning of the week.

3 quartered ripe oranges (peeled)

**Before you get started** … Assemble the **Juicer** (Page 31) and make sure your ingredients are within arms reach and sized to fit into the pop-top of the **Blender Lid**.
**Then** … Put the Magic Bullet into **Lock On** mode.
**And** … Add the oranges into the **Extractor** and push down with the plunger.
**Then** … Pour the juice into a glass (keep the lid of the blender on while pouring).

Never run the Magic Bullet for more than a minute, it can cause permanent damage to the motor. If you do overheat the motor and it stops, unplug the **Power Base** and let it rest for a few hours before attempting to use it again.

**Fresh Pineapple Juice** ![Fat](image)

Refreshing, tangy 100% natural pineapple juice … life doesn’t get much better!

1/3 of a fresh pineapple (the rind is ok)

**Before you get started** … Assemble the **Juicer** (Page 31) and make sure your ingredients are within arms reach and sized to fit into the pop-top of the **Blender Lid**.
**Then** … Put the Magic Bullet into **Lock On** mode.
**And** … Add the pineapple into the **Extractor** and push down with the plunger.
**Then** … Pour the juice into a glass (keep the lid of the blender on while pouring).

**Caution** ![Fat](image)

**If the blade stops in Lock On mode, unplug the Magic Bullet immediately.** Sometimes, especially when the motor is coming up to speed, a hard ingredient, such as a carrot chunk, can get stuck in the blade. If the blade stops, UNPLUG THE MAGIC BULLET IMMEDIATELY. Give the Bullet a shake to jostle the ingredients, then start again. If it doesn’t start to blend, unplug, take the blade/cup off and give the ingredients a good shake to unclog the blade. If the blade still seems obstructed, twist off the blade and carefully (it’s sharp) spin the blade manually. Once the blade will spin, plug the Magic Bullet back in and try again — you should be good to go.

Never run the Magic Bullet for more than one minute, it can cause permanent damage to the motor. If you do overheat the motor and it stops, unplug the **Power Base** and let it rest for a few hours before attempting to use it again.
Energy Cocktail

This hearty, rich, energy drink is chock full of antioxidants and flavor. The perfect blend to start your day.

2-3 chunks of watermelon (about 6 inches long)

**Before you get started …** Make sure your ingredients are sized to fit into the pop top of the *Blender Lid.*
**Next …** put the Bullet into *Lock On mode.*
**Then …** add the ingredients into the *Extractor* in the order they are listed, using the plunger to push the ingredients in to the blade.
**When it’s ready …** Pour the juice into a glass (keep the lid of the Blender on while pouring).
**And …** serve over ice.

Never run the Magic Bullet for more than one minute, it can cause permanent damage to the motor. If you do overheat the motor and it stops, unplug the *Power Base* and let it rest for a few hours before attempting to use it again.
